

Mayco's **HIGH BOOT ROOF FLASHINGS** are made from the highest quality and most durable materials, making them ideal for all types of roofing applications.

We make custom lead flashings to fit your architectural specifications and to meet federal, state, city, and county flashing codes. They can be manufactured as adjustable (flexible up to approximately 14 degrees), or made to fit any roof pitch up to 17/12.

Available in 2.5, 3, 4, and 6 lb weights.

Available in a variety of pipe diameters, pipe lengths, and base sizes.
